We

are a proud family-owned business with more than 100 years of experience in the flooring industry.

We distribute all over the world, offering unique and exclusive flooring concepts.

We create for architects, interior designers, retailers, hospitality and other design enthusiasts.

We source the best raw materials and respect the environment by keeping sustainability at the core of our promise to thoughtful design.

We believe in quality and long lasting products and constantly challenge ourselves in the balance between design and functionality.

FROM Madagascar

Beauty & Sustainability

Sisal is a natural fiber harvested from the agave plant, known for its strength, durability, and timeless appeal. A renewable and biodegradable resource, sisal supports eco-friendly living by reducing reliance on synthetic materials and minimizing environmental impact.

With its rich texture and resilience, sisal offers a sustainable flooring solution ideal for both residential and commercial spaces, blending natural beauty with long-lasting performance.
